Subject: Dashboard Design and Report Delivery - Power BI Project for Executive Reporting

Hi,

Welcome to the team! We're excited to have you onboard and look forward to seeing your expertise in action. As part of your initial tasks, we'd like you to design and deliver a Power BI dashboard report using the Adventure Works dataset. This report will be viewed by our executive team, so it's essential that it is both insightful and easy to navigate.

Dashboard Objectives
The primary goal of this dashboard is to provide a high-level overview of key business metrics while allowing the executive team to drill down into more detailed information as needed. The report should include the following key performance indicators (KPIs):

Single Big Number KPIs:

- **Revenue:** Total revenue generated.
- **Quantity Sold:** Total number of units sold.
- **Average Selling Price:** Average price at which products are sold.
- **Profit:** Total profit earned.
- **Profit Margin:** Profit as a percentage of revenue.

Insights KPIs:

- **Weekly Sales Trend**: Track and visualize weekly sales data.
- **Monthly Revenue vs. Previous Month:** Compare revenue on a monthly basis.
- **Monthly Units Sold vs. Previous Month:** Compare units sold on a monthly basis.
- **Monthly Profits vs. Previous Month:** Compare monthly profits.

Supporting Details:

- **Revenue by Category:** Breakdown of revenue by product category.
- **Details by Country:** Include Revenue, Units Sold, Profits, and Profit Margin for each country.
- **Revenue Drivers:** Analyze the key factors driving revenue.
- **Most Product Sold:** Highlight the best-selling products.

Expectations
Please ensure the dashboard is visually appealing, with intuitive navigation and a clear layout that highlights the key metrics mentioned above. The use of different charts, filters, and drill-throughs to allow the executive team to explore the data in more detail would be highly beneficial.

Timeline
Kindly prioritize this task and provide a draft of the dashboard today. This will give us time to review and make any necessary adjustments before the final presentation to the executive team.

If you have any questions or need further clarification on any aspect of the project, please don't hesitate to reach out.

Thank you, and I look forward to seeing your work.

Best regards,
Eric T. Llagas
Sales Director
